

2020 Virtual WITSA Global ICT Excellence Awards Nomination Form

AWARD CATEGORIES:

Awards will be given to individuals, academics, businesses, NGOs, government branches etc., on the basis of particular programs, web sites, strategies of ICT / Internet deployment; i.e. the awards will not be political but technical, honoring use and implementation of technology in accordance with the criteria described below (i.e. a government per se will not be a “winner”, but one of its integrated web sites or services may be). The winners may not necessarily represent the most advanced technology solutions, but should be excellent examples of ICT deployment which have made a difference for the community of interest (whether providing public services, boosting profits or advancing connectivity):

Please note that nominees will be judged on the basis of the following criteria and weighting:

Judging Criteria	Weighting
Global Impact/Potential	30%
Scalability	30%
Innovative Features and Functionalities	10%
Proven Solution	30%

9. E-Education & Learning Award

Award Criteria:

The Digital Age is requiring new sets of skills, and adoption of new models of public education that emphasize coding, programming and computer science must be adopted. Contrary to popular belief, the digital gap is widening, putting pressure on countries to catch up. Public education must adopt new approaches to lifelong learning.

This award will be given to the best electronic learning project. We seek any innovative new technological tool, or any project that uses existing electronic learning tools in an innovative way. Such projects should facilitate and support learning through the use of information and communications technology.

YOUR NOMINEES (limit two nominations per award category):

Find Solution AI Limited – 4 Little Trees

REASONS FOR NOMINATION (please justify why you think your candidate is qualified):

Vision: using AI (Big data analysis, emotion detection, etc) to enhance learning and teaching experience

Pain Points: Teachers may not know student real-time performance or reaction while they are teaching, students may not know how to react when they face the problems, procrastination

Solutions:

With 4 LittleTrees - an AI patented Motivation model, emotion detection learning platform, a virtual teaching assistant would help through choosing the most suitable questions for you or challenge you when needed. Find Solution AI Limited are on a mission to solve the real-world challenges in traditional education by developing novel artificial intelligence (AI) technologies to provide an adaptive and personalized learning experience for students worldwide in a novel approach.

- Automatically assess and modify students' learning progress according to the analysis of students' confidence level based on their learning metrics and learning behavior in the system.
- Motivate students and drive them to regain the interest and confidence through the rewards in games.
- Understanding the student learning metrics and behavior with novel technologies by measuring students' facial expressions without any recording on photo or video
- Motivate students and interact with students when they are off track.
- Analyze students' performances by our system and display a learning curve to compare the results with students in the same level.
- Forecast students' learning performances from the data collected and enhance student performance

Why Find-Solution AI: AI software company – 4 Little Trees, with at least 4 patent and 23 global and local awards
