

2022 WITSA Global Innovation and Tech Excellence Awards Nomination Form

The 2022 WITSA Global Innovation and Tech Excellence Awards (formerly known as *the Global ICT Excellence Awards*) will be presented to select individuals, academic institutions, corporations, NGOs or governments whose use and applications of digital technologies exhibit exceptional achievement within the following broad categories:

Private Sector/NGO	Public Sector
Digital Opportunity/Inclusion Award	Digital Opportunity/Inclusion Award
Smart Cities Award	Smart Cities Award
Sustainable Growth/Circular Economy Award	Sustainable Growth/Circular Economy Award
Innovative eHealth Solutions Award	Innovative eHealth Solutions Award
Public/Private Partnership Award	Public/Private Partnership Award
E-Education & Learning Award	E-Education & Learning Award
Emerging Digital Solutions Award	Startup Ecosystem Award

In addition, a *Chairman's Award* will be presented to a nominee selected from the entire pool of candidates from all award categories.

Candidates for these Awards are nominated by ICT experts from around the world who span over 80 countries/economies. The 2022 *WITSA Global ICT Excellence Awards* will take place in conjunction with the September 13-15, 2022 World Congress on IT in Penang, Malaysia (<https://wcit2022.com>/<https://wcit2021.org.bd/>).

Emerging Digital Solutions Award

The Emerging Digital Solutions winner is selected for their proven and scalable innovative digital solutions capable of transforming the wellbeing, prosperity, connectivity or productivity of others around the world.

This award will take into consideration the successful application of ICT in such areas as humanitarianism, health, social awareness and justice, rule of law, sustainable growth, business and commerce, health care, education, as well as the effective delivery of public services and transparency.

The Emerging Digital Solutions program recognizes early-stage or veteran companies whose solutions are new, and scalable to other locations throughout the world. The Emerging Digital Solutions program is looking for solutions that can be presented to interested policy makers, investors, corporations and social stakeholders with the potential to boost its development and deployment, aiming to significantly impact individuals, groups and societies.

YOUR NOMINEES (limit three nominations per award category). Please specify whether the nominee(s) are for the private or public sector category.

Private Sector

Nominee: D-Engraver Ltd

Entry: HashTag and HashSign

REASONS FOR NOMINATION (NOTE: It is important that you make a detailed description of the nominee and why you think the nomination is justified. The absence of a detailed summary of qualifications as they *relate* to the above-mentioned award description will make it difficult for the awards committee to make an appropriate assessment of the candidate):

D-Engraver is a leading blockchain products and ecological builder in Hong Kong, founded in 2018. Our mission is to engrave records as credentials of organizations, businesses, and individuals to eliminate the crisis of trust in the information sharing process.

We were the Gold Award winner of 2021 Hong Kong ICT Award and obtained ISO27001 certification. Besides, we have owned several patented technologies in blockchain consensus algorithm, data encryption methods and data rollback mechanism areas. As a result, D-Engraver Chain can achieve 10,000 times transaction speed faster than Ethereum supporting our blockchain platform can handle massive transactions situations in wider range of trading scenarios.

Our blockchain ecosystem construction divided into three layers, from bottom to top are D-Engraver cross-chain, Web 3.0 platform and blockchain products. We have two brands of product, HashTag and HashSign, form a blockchain-based one-stop deal-closing platform to empower the digital economy and eliminate the crisis of trust in remote business activities. The platform allows cross-border parties to complete deal closing and business engagement as well as tracing ongoing business process and complete trades.

The usage of HashSign and HashTag could bring multiple value propositions in solving the challenges of enterprises and businesses. D-Engraver builds trusted business links and reduces deal closing process's information lost in communication and traces each individual ID's accountability by validating data sources. Also, by converting all physical documents and data into digital in blockchain, they can achieve green, paperless office and business activities while empowering society to achieve the goal of carbon neutrality. Ultimately, D-Engraver was able to connect multi-party databases to achieve atomic-sized management within the company, and break through the information isolation between the upstream and downstream of the industry chain.

D-Engraver is adopting different market expansion plans for the international market. Now, we have thousands of users distributed in the regions of China, Australia, UK and East Asia. The applied industries across advanced manufacturing, digital assets, legal and supply chain finance. D-Engraver is adopting various market strategies including forming partnership with Cisco Webex by API economy, Robinson Lawyers and any other leading enterprise in finance, legal and supply chain industries.
