

2022 WITSA Global Innovation and Tech Excellence Awards Nomination Form

The 2022 WITSA Global Innovation and Tech Excellence Awards (formerly known as *the Global ICT Excellence Awards*) will be presented to select individuals, academic institutions, corporations, NGOs or governments whose use and applications of digital technologies exhibit exceptional achievement within the following broad categories:

Private Sector/NGO	Public Sector
Digital Opportunity/Inclusion Award	Digital Opportunity/Inclusion Award
Smart Cities Award	Smart Cities Award
Sustainable Growth/Circular Economy Award	Sustainable Growth/Circular Economy Award
Innovative eHealth Solutions Award	Innovative eHealth Solutions Award
Public/Private Partnership Award	Public/Private Partnership Award
E-Education & Learning Award	E-Education & Learning Award
Emerging Digital Solutions Award	Startup Ecosystem Award

In addition, a *Chairman's Award* will be presented to a nominee selected from the entire pool of candidates from all award categories.

Candidates for these Awards are nominated by ICT experts from around the world who span over 80 countries/economies. The 2022 *WITSA Global ICT Excellence Awards* will take place in conjunction with the September 13-15, 2022 World Congress on IT in Penang, Malaysia (<https://wcit2022.com>/<https://wcit2021.org.bd/>).

E-Education & Learning Award

Award #1: Individuals, academic institutions, corporations, or NGOs

Award #2: Government authorities

Award Criteria: The Digital Age is requiring new sets of skills, and adoption of new models of public education that emphasize coding, programming and computer science must be adopted. Contrary to popular belief, the digital gap is widening, putting pressure on countries to catch up. Public education must adopt new approaches to lifelong learning. This award will be given to the best electronic learning project. We seek any innovative new technological tool, or any project that uses existing electronic learning tools in an innovative way. Such projects should facilitate and support learning through the use of information and communications technology.

YOUR NOMINEES (limit three nominations per award category). *Please specify whether the nominee(s) are for the private or public sector category.*

Private Sector

REASONS FOR NOMINATION (NOTE: It is important that you make a detailed description of the nominee and why you think the nomination is justified. The absence of a detailed summary of

qualifications as they *relate* to the above-mentioned award description will make it difficult for the awards committee to make an appropriate assessment of the candidate):

CIBERCOLEGIOS: It is an Educational Management System, a pioneer in providing educational institutions throughout the country with state-of-the-art technology to improve their administrative, academic and communications processes, a project that began as a solution to the communications problems that the institutions, teachers and families had at that time, and that thanks to this wonderful tool it became an instrument to unite the entire community and improve its processes, which is why today we have a reach of more than two hundred thousand users among the entire educational community both nationally and internationally, since from the year 2021 we have a presence in Ecuador and we hope to continue opening the market worldwide.

Cibercolegios also supports the educational processes of institutions through a reliable, safe, innovative and flexible System, consolidated in the national market as a leader in Educational Management Systems, thanks to a work team that works day by day interpreting the needs of the market and bringing them to reality.

Cibercolegios manages an ecosystem of technology-based solutions for Educational Institutions where its main mission is to facilitate learning processes.

In these 22 years we have accompanied thousands of children and young people in their academic and professional development, hundreds of annual promotions. And it's very satisfying to be able to see how the educational community gives value to each of the System's tools and how they try to interact with technology as a means of learning through Cibercolegios. Two years ago, when the Covid-19 pandemic shook the world and physically distanced people, we confirmed that we have a robust product capable of responding to the needs of the market, satisfactorily meeting the high demand for virtual solutions in their academic and learning processes.

SUPPORTING INFORMATION: Please send any supporting information to the address above, including information from candidate (i.e. excerpt from program description, web site print-out, press release, etc.)
