Alaa Saafan	asaafan@rakict.com	E-education & Learning Award	Learning & Education	https://drive.google.com/u/0/open?usp=forms_web&id=18XugA4MgwZ1W_jVUQWAK0-kFU6ihXqc_	We worked over 2021 - 2022 on developing the digital and culture skills to Egyptians in upper Egypt and has no access to technology alligning with Egypt vision 2023 on A HIGH QUALITY EDUCATION and TRAINING SYSTEM available to all, without discrimination.
Ahmed Farouk	ahmed.farouk@apptcom.com	E-education & Learning Award	KIDSTAR	https://drive.google.com/u/0/open?usp=forms_web&id=1MtAnqHrMawQ46oUqjXc2M2EnO-p-Jhah	Participating is an added value to position our innovation solution and understand its impact on society. Being judged in this competition will be a great useful to measure our product and how much we achieved to express right. Wining is a great step to speed up our market penetration. Since knowledge is key for human development, livelihood conditions improvement and ensuring sustainable growth – APPTCOM through KIDSTAR paves way for children to learn and discover their abilities through AR story. Indirectly this will enhance child's learning skills and increase knowledge which will help in improving the education quality – contributing to SDG#4.
Nahla Ibrahim	nahla@kotobee.com	E-education & Learning Award	Kotobee Author	https://drive.google.com/u/0/open?usp=forms_web&id=10r7urrMVop4DcpRNGqyfUEnGzUuMLOxb	Kotobee Author is an interactive ebook authoring tool, suitable for K12, universities, and all independent teaching activities. It provides a simple self-intuitive interface to enrich any ebook with interactive content to provide elearning and blended learning. Examples of interactive content include videos, audio, interactive images, slideshows, self-assessment questions, buttons, popups, audio-synced text, 3D models, widgets, and ebook apps. Kotobee Author allows teachers, trainers, and educators to export their ebooks to more than 12 different formats, such as web apps, mobile apps, and digital libraries, saving the cost of using multiple tools to cover a range of target formats. Teachers can also add their own theme design, branding, and customization to interactive ebook
Ahmed Abd El Azeem	Ahmed.AbdElazeem@qsitint.com	Smart Cities Award	Incident Management & Common Operational Platform Smart Solution	https://drive.google.com/u/0/open?usp=forms_web&id=1GbMNvgQVUnh42JGpGqpUoMpFAnSBz0Ne https://drive.google.com/u/0/open?usp=forms_web&id=187g1Ok_SDKR4OiN9eyWywPvKMa9QGgAw https://drive.google.com/u/0/open?usp=forms_web&id=10TNDJ5LLVceq9i77rppkmxlP_b66NWvO	Today, our communities and smart cities are exposed to threats, either natural or fabricated, which require full-scale situation assessment, mitigation, preparation, and response. This new reality entails rethinking policies, plans, and the allocation of resources. Hence, it has become inevitable for any concerned authority to work on ensuring the safety and security of its employees, securing its assets and properties, as well as, maintaining its continuity of government. Worldwide events have served to heighten the importance of these responsibilities and emphasize the need to understand the systems, infrastructure, and design of everything that contributes to the above mission. In light of the above, Incident Management & Common Operational Platform Smart Solution will be used right from call reception to closure for successful emergency management. The Solution is an emergency call-taking and dispatching software product. The solution leverages spatial capabilities to improve response throughout the emergency handling process. The product ensures quick and accurate identification of the emergency location, emergency response team speedy arrival to the right incident location at the right time, and provisioning of valuable incident situational awareness. The Ultimate goal of this solution is to save many lives and properties as much as we can which entitles us to

Khaled Abdelaziz Yusuf	khaled.yusuf@lavaloon.com	Emerging Digital Solutions Award	LavaDo	https://drive.google.com/u/0/open?usp=forms_web&id=1uSmo6VP4n_aS3NrrVqh7tDUnKMRW-zHK	Our product "LavaDo" provides organizational functions in different areas (HR, accounting, inventory, POS, purchasing, etc.) which is commonly known as ERP solution, but LavaDo isn't limited to the regular model of ERP. It targets specific business models like the retail distributors and pharmacy chains, to solve specific business challenges they face, and the current market's solutions don't resolve them effectively. Moreover, we simplify and support the business growth by integrating the solution with other services and systems like elnvoice (with the Egyptian Taxes authority, and Saudi Zakat authority), SMS gateways, payment gateways, shipment service providers like FedEx and Aramex. All of that provided to the users in form of web and mobile applications upon the business function need and nature. Our goal is to completely solve the pain that any business or organization faces during their digital transformation journey, which is the difference in technologies between the various systems and the need for high-end, costly system integration to maintain smooth operations. LavaDo is built around the novel idea of providing businesses and organizations with ready-made system integration solutions, removing the hassle of having to expend great time, money, effort & resources just because they don't have access to effective
