---

### Emerging Digital Solutions Award

The Emerging Digital Solutions winner is selected for their proven and scalable innovative digital solutions capable of transforming the wellbeing, prosperity, connectivity or productivity of others around the world.

This award will take into consideration the successful application of ICT in such areas as humanitarianism, health, social awareness and justice, rule of law, sustainable growth, business and commerce, health care, education, as well as the effective delivery of public services and transparency.

The Emerging Digital Solutions program recognizes early-stage or veteran companies whose solutions are new, and scalable to other locations throughout the world. The Emerging Digital Solutions program is looking for solutions that can be presented to interested policy makers, investors, corporations and social stakeholders with the potential to boost its development and deployment, aiming to significantly impact individuals, groups and societies.

**YOUR NOMINEES (limit three nominations per award category).** *Please specify whether the nominee(s) are for the private or public sector category.*

**Emerging Digital Solutions Award from Private Sector.**

**REASONS FOR NOMINATION** (NOTE: It is important that you make a detailed description of the nominee and why you think the nomination is justified. The absence of a detailed summary of qualifications as they *relate* to the above-mentioned award description will make it difficult for the awards committee to make an appropriate assessment of the candidate):

**InfoDevelopers Pvt. Ltd., established in 2002 AD, is an ISO 9001:2015 Certified Company that has been a leader in providing FinTech solutions to different verticals in Nepal for the last 20 years. With 350+ highly skilled and trained employees with excellent infrastructure, the company is recognized nationally and internationally for its relentless effort towards innovation and quality services.**

**InfoDevelopers has been providing wide range of high quality services in the development, delivery, and maintenance of software in Nepal, India, Bhutan and USA. Among a plethora of our products & services, we specialize in development of products and services such as core banking system, mobile banking applications, portfolio management software, office automation software, artificial intelligence products and many more. As one of the best software development companies in Nepal, we execute highly technical projects on-time, within scope, and with a lower cost than other competing companies. InfoDevelopers is one of the major application service provider for Government agencies.**

**Over the years, InfoDevelopers has carved a niche for itself in Nepal's IT industry and has grown in terms of products/service line and customer base. InfoDevelopers has also been recognized by various national and international organizations for its relentlessly successful efforts towards innovation, quality service and care towards its clients & customers. The company is promoted and managed by professionals having decades of experience in banking and financial automation system analysis, development, implementation and support activities. In addition, the company possesses the most knowledgeable and experienced hands to offer quality, cost-effective, sustained and user-friendly customized as well as off-the-shelf product solutions.**

**We are changing the Digital landscape for more than 1000 plus Cooperatives and Microfinance and their 3.5 million members who are using our solutions including Mobile Banking. Recently we had a partnership with National Cooperative Federation (NCF) for the Digital Transportation of Cooperatives. The National Cooperative Federation of Nepal (NCF) is the apex body of cooperatives of all types and levels in Nepal.**
